FROM THE PROGRAM DIRECTOR

December Bar Night and Party

Friday Night, December 8th

9 pm Bar Night at Touché

We begin the December party weekend by joining our CHC brothers and guests on Friday night, December 8, at 9 pm at Touché, 6412 N. Clark St., in Chicago. The bar night is listed on our website as a public event, so if you have any questions for your CHC brothers or want to bring a friend to meet them, now's your chance.

Saturday Night, December 9th

8 pm Demo and 9 pm Play Party

On Saturday, December 9th, come and join us at the clubhouse for a demo and party. The December demo, arranged through our SM University, is an advanced look at E-stim by CHC Applicant Electric Steve. The demo will begin at 8 pm, and is open to members and registered guests, and the doors will be open from 7:45 to 11 pm. The party is a non-smoking party.

The Demo:

"How to Light Up Your Sub for the Holidays! (without increasing your electric bill)"

Electric Steve's advanced look at E-stim is one you'll never see at CLAW or MIR due to restrictions on nudity at those venues. Since CHC has no such restrictions, Steve will demonstrate the placement of pads on a

man's cock and balls, and also demonstrate an anal insertable. Don't be "shocked" if there are some moans and screams from the demo bottom! Other topics include: popular devices, do's and don'ts, and both challenges and advantages of combining e-stim and other play, and guidelines on where to do your E-stim in the clubhouse.

All clubhouse parties are non-smoking except those marked smoking parties.
For more information on public CHC events, check our Facebook Page at <http://facebook.com.chicagohellfire>

MORE FROM THE PROGRAM DIRECTOR

(Program continued from Page 1)

Party

After the demo, the dungeon party begins at 9pm. Continue the electrical fun with Electric Steve or feel free to start any other scene you have planned. Please keep conversation upstairs to a minimum so all players can enjoy their scenes without being distracted.

Dungeon Masters

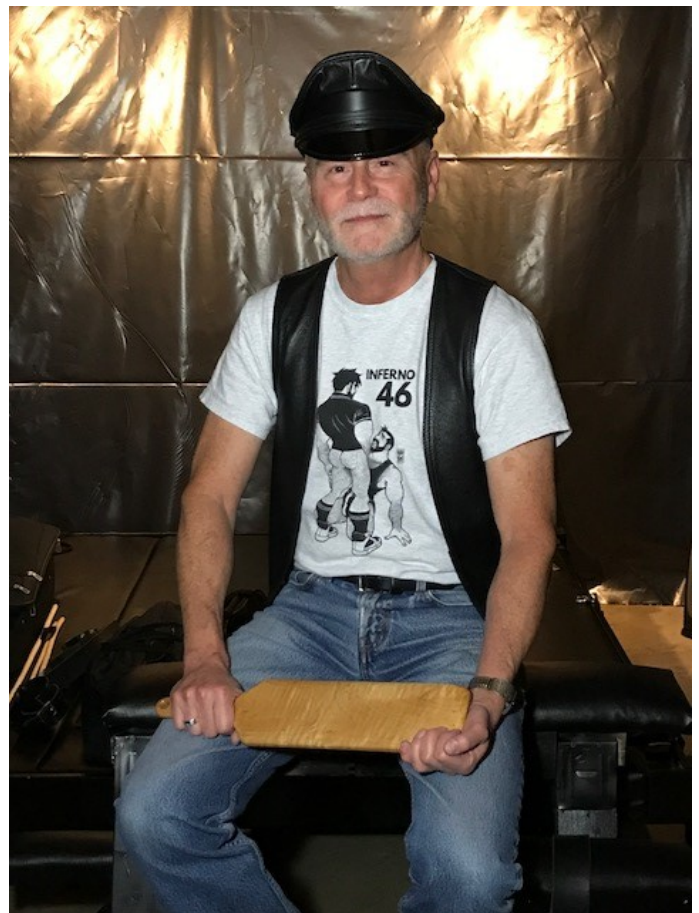

Our Dungeon Masters wear an orange vest and are in charge of all play in the room. Please give them your respect and remember that their decisions about play are final. And, if you're preparing to do a scene that might be seen as overly intense, it's always wise to let the DM know.

Social Area

Our social area is downstairs, and this is where you can sit and enjoy a snack and a beverage, converse with other players, and watch a video.

CHC Party Dynamics

Some members and guests attend our parties already having a scene in mind. Others attend without having anything planned, just to see what opportunities the evening presents. One way you can increase your chances of future play is to engage members and guests in conversation in our social area downstairs. Introduce yourself and ask questions to get the conversation going. Remember, Hellfire Club is your opportunity to meet players and get to know them before you approach them about playing.

A Medical Primer on BDSM

In my reading I recently came across a human disorder called ALGOLAGNIA. I found this very interesting. ALGOLAGNIA is a sexual tendency which is defined by deriving sexual pleasure and stimulation from physical pain, often involving an erogenous zones. Sadism would be active ALGOLAGNIA; masochism would be passive ALGOLAGNIA.

In 1905 Freud introduced his theory of sadism and masochism. In the early 1900s Albert Freiherr von Schrenck-Notzing (who was a sadist) thought that ALGOLAGNIA was a psychological disorder, however this view began to change once the Kinsey Reports noted that many seemingly normal people often enjoy pain in a sexual context. Recently researchers using MRI and computer models of neurons show that most ALGOLAGNIACS experience pain differently from others. ALGOLAGNIACS may have DNA errors.

Researchers say there is a difference between the physical phenomenon of ALGOLAGNIA and psychological phenomenon of masochism. ALGOLAGNIA refers specifically to the giving or receiving of pain. Masochistic sexual experiences do not necessarily include pain. Humiliation, domination and submission are the primary ingredients of masochism.

So, if pain is your turn on, now you know that it may be in your DNA. Was this an error in transcription or did you inherited it....and if so from whom?
